St. Anthony of Padua- Feast Day June 13

Saint Anthony was born Fernando Martins in Lisbon, Portugal. He was born into a wealthy family and by the age of fifteen asked to be sent to the Abbey of Santa Cruz in Coimbra, the then capital of Portugal. During his time in the Abbey, he learned theology and Latin.

Anthony occasionally taught at the universities of Montpellier and Toulouse in southern France, but he performed best in the role of a preacher. So simple and resounding was his teaching of the Catholic Faith, most unlettered and the innocent could understand his messages. It is for this reason he was declared a Doctor of the Church by Pope Pius XII in 1946.

Once, when St. Anthony of Padua attempted to preach the true Gospel of the Catholic Church to heretics who would not listen to him, he went out and preached his message to the fish. This was not, as liberals and naturalists have tried to say, for the instruction of the fish, but rather for the glory of God, the delight of the angels, and the easing of his own heart. When critics saw the fish begin to gather, they realized they should also listen to what Anthony had to say.

He was only 35-years-old when he died and was canonized less than one year afterward by Pope Gregory IX. Upon exhumation some 336 years after his death, his body was found to be corrupted, yet his tongue was totally incorrupt, so perfect were the teachings that had been formed upon it. He is typically depicted with a book and the Infant Child Jesus and is commonly referred to today as the "finder of lost articles."

St Anthony is venerated all over the world as the Patron Saint for lost articles, and is credited with many miracles involving lost people, lost things and even lost spiritual goods.
